

Improvement Suggestion	Image	Usage	Cost Estimate	Reality Check/ Comment
Defibrillator		<p>Life saving device to be housed in the centre of the village and potentially a second device at Home farm park.</p>	<p>Housing cabinet: £600 (x2) plus Rental of unit £1 per day</p>	<p>The Badger Inn already has a defibrillator, but it cannot be accessed 24/7 by the public. Home farm park defibrillator location to be reviewed.</p>
Red phone box		<p>The implementation of a red phone box (e.g. possibly housed on the edge of village hall car park) would add a further touch of village identity and could be used to house a small village book library and/or defibrillator (note: but not a phone)</p>	<p>£2,000</p>	<p>High aesthetic value, but would use up a large portion of village improvement fund. Difficulty of organising initial electricity feed and ongoing electricity funding arrangements. Planning permission would likely be required.</p>
Pathways		<p>Review where pathways could be improved to:</p> <ol style="list-style-type: none"> <li>1) extend to start of Minshull lane from village</li> <li>2) Pathway adjacent to Cross lane from/to the canal.</li> <li>3) Improvements to pathways to/ from Home Farm Park</li> </ol>	<p>Unknown</p>	<p>For certain stretches, access to farming land would have to be agreed. In reality - difficult to achieve and fund. Information gathering on various options at this point.</p>
Flower Beds		<p>Install raised flower beds in the village in a few locations. Possible locations could include: grassed area next to the Homesteads, Village hall car park wall area, Raised Church yard wall area, in front of Weaver view.</p>	<p>£350 (x 1 or 2 locations)</p>	<p>Again of high aesthetic value, but the flower beds would have to be maintained by a few village volunteers and will rely on contributions from local associations for new flowers on a yearly basis. All final suggestions will be subject to approvals by relevant groups.</p>

Improvement suggestion	Image	Usage	Cost Estimate	Reality check / Comment
Tree Planting		<p>Help to save the planet now and for future generations. Plant trees in areas of less populated existing woodland around the village and in open spaces.</p>	<p>£3-4 per tree</p>	<p>Finding areas to plant trees is tricky as the village does not have much common land. Innovative tree ownership agreements with existing land owners will be necessary to achieve this.</p>
Village Signs		<p>A few signs around the village require restoration - specifically:</p> <ol style="list-style-type: none"> <li>1) The traditional black and white Nantwich / Wettenhall / Church Minshull sign on the corner of Minshull lane</li> <li>2) The traditional blue 'River Weaver' which was previously located on the Weaver bridge - bring it back and erect.</li> </ol>		<p>Straighten &amp; re-paint the traditional black and white road sign on Minshull lane corner. The traditional blue river Weaver sign would need highways approval to re-instate.</p>
Village Arena Website revamp		<p>Take the opportunity to upgrade the Arena website.</p>		<p>the village website working group are currently reviewing practical improvement options (some measures have already been implemented)</p>
Make your suggestion		<p>The Parish Council welcomes your village improvement suggestions</p>		<p>Please send in any ideas that you believe could be useful /practical improvements for the village</p>
