

As we declared at our last meeting, that the group had 'done our job' and that other groups had taken over the roles, originally under the Vision umbrella, that this group should now declare that our mission has been accomplished. Only Minshull Madness remains under Village Vision, so with this in mind I think we should thank Kerry and Larry for all the hard work they have put into the Madness and other events and I would like to propose that a new group now takes those events under their control. I also propose that the Vision Group now considers it's role at an end and closes on March 31st, producing one final set of financial results for the year 2018/19.
